

THE  
HALCYON  
COLLECTION

BELLA FIGURA

THE WORLD'S MOST BEAUTIFUL LIGHTING

# THE HALCYON COLLECTION

The journey of The Halcyon Collection begins with the tale of a Kingfisher bird, whose nest is perched on the edge of the sea. In ancient legend, the Halcyon bird is said to possess the ability to bring forces of nature under control, charming winds and waves to bring peace and tranquillity to its nest. Born from the myth of this bird, the word Halcyon now conjures up thoughts of sanctuary, fond memories and space for reflection.

Our attraction to water as a species is clear; its presence can quiet a noisy mind and bring a hypnotising calm in its place. Water signifies a presence of nature and symbolises a return to simpler times, its soothing existence is an answer to the desire for serenity in our busy lives. This collection of products explores the mesmerising ways water makes its presence known; crashing waves and whirling vortexes are countered by the still, silent lagoons and the imprints left behind where water once flowed. Much like the fabled Halcyon bird who bewitched waters to create a restful, safe nest, this collection of products provides the power to create absolute serenity and peace within your home.

Bella Figura has long been an avid supporter of Italian and British craftsmanship and in recent times has sought out and focused upon the best of our homegrown talent, championing English blown glass and crystal, metalsmiths and lampshade makers across the breadth of the UK. The Halcyon Collection remains engaged with our long adored and most adept Italian masters of creation, whilst showcasing the skill and finesse of our most dedicated British craftsmen and women, all of whom possess attention to detail you can feel in each and every piece.

# MAKHANA

The gregarious Gorgon plant plays host to bright and beautiful plumes, but a look beyond its perennial blossoms reveals a barbed coat of armour loaded with sharpened lances. Known locally as Makhana, the giant quilted leaves of this aqueous character cloak a fierce morning star lurking below the water's surface. With the plant's armament in mind, we arrived at the design for the Makhana ceiling light, solid brass rods and bubbled glass domes coordinate to create an impressive showstopper.

# PERLE

A cache of sixty-two pearlescent plates form this glowing crown of ultimate beauty and grandeur, each with a gold or silver bead nestled into its centre and a frosted glass diffuser to ensure elegance from every angle. The alabaster glass featured in this sophisticated chandelier is evocative of the natural nacre of the pearl oyster's deep-sea treasure trove and emits an empyreal radiance when lit.

# MARINA

Soaring high and gazing down upon the marinas of the world consistently reveals a design of systematic order. Sea-faring vessels harboured side by side in organised rows and a complete absence of chaos. As daylight falls there is a spectral glow upon the water in this scene, distorted and diffused. The two fundamentals of the Marina range: clean lines and an atmospheric, misted glow.

# MONDRIAN

*"I wish to approach truth as closely as is possible, and therefore I abstract everything until I arrive at the fundamental quality of objects." — Piet Mondrian*

Mondrian's Pier and Ocean series describes a gradual abstraction of a waterfront scene, simplifying oblique and indistinct details into parallel, rhythmic lines, which describe the pulse of the ocean. Our Mondrian family is heavily influenced by this astute observation of the underlying patterns in nature and the unending movement of water, drawing on these qualities of order and balance to create these sculpted pieces.

# LOTUS

According to Greek legend, the lotus yields fruit that leaves its consumer lost in reverie and contented musing. It has also long been a symbol of peace and purity around the globe. Such associations have lent it a divine energy and an otherworldly quality which we hope to emulate. The shield-like petals of this design are set apart, allowing a soft glow to frame each one. The brass plates are accented by hand carved lucite petals which gently refract the light. This pairing exudes beauty, grace and glamour.

# TOURBILLION

These dynamic lights are fashioned in the image of a whirling vortex. The dancing waves depicted by the hand-beaten rings in this majestic design sway from side to side like oscillating tide lines, seeming to waltz around the slim, silk lampshades suspended in their grasp. The ability to select any of our 280+ silk fabrics allows each piece to be customised.

# LAVALIER

A little-known gesture of romantic engagement is the giving of a single jewelled pendant, a lavalier. Our inspiration for this piece evolved from the fabled *Heart of the Ocean* necklace, an enduring symbol of love, luxury and devotion. This delicate lead crystal pendant features a hand-cut unbroken line which echoes the reflections on flowing water.

# CREST

Rolling waves tumble and break over the dome of these atmospheric glass pendants which feature a hot finished edge, preserving the molten fluidity of the glass. These temperate waves are the perfect antidote to the tumultuous storm captured within its table lamp counterpart: the calm before the storm.

# ARCTIC, GLACIER AND FOSS

The Contour Collection favourites, Arctic and Glacier have made a comeback this year bringing with them a new addition, Foss, as they form a triptych of wall pendants. Foss, meaning waterfall, is representative of rushing white water, hundreds of bubbles trapped within an effervescent glass dome. All three glass designs are available with Brushed Nickel, Brushed Gold or Brushed Dark Bronze detailing and can be ordered with or without a stylish dolly switch, perfect for bedside placement.

# DART

Deep in a wooded coombe to the south of Dartmoor, gnarled hawthorns and verdurous canopies veil a twin cascade of white water. Bordered by banks festooned in tall ferns, the River Dart's secret sanctuary - Venford Falls. The converging channels of our Dart wall light translate this tranquil haven into a satisfyingly sleek sculpture, which will bring graceful adornment to any interior.

# CYPRESS

The Giant Bald Cypress tree is one of stalwart stature, rooted deep in the mangrove and keeping watch over an oasis of tranquillity and stillness. The Cypress trees rotund form and complex root structure is emulated in our Cypress table lamp; an understated spherical piece with hand-carved glass furrows, acid dipped for an enchanting frosted look.

# ATACAMA

Atacama, Chile, is one of the driest areas in the world and within this remote desert lies beauty of ethereal quality.

An extra-terrestrial landscape of pink birds and imposing rock formations, eerie pockets of water bubbling and jets of steam bursting into the sky. Most unusual of all is the vast white jigsaw spanning as far as the eye can see, the salt flats of Atacama. Our new design of the same name retraces the natural pattern scored through this salt mosaic in a delightful array of glass colours.

# EYRE

Indigenously known as Kati-Thanda, Lake Eyre is usually cinder dry, the lakebed blanketed by a patchwork of tessellating salt segments, as reflected by the scalloped surface of our Eyre table lamp. Of the 5 new colourways, Blush Pink is of particular note - an emulation of the natural phenomenon which takes place when the lake is flooded, bringing a flourish of salt-loving algae and halobacterium who turn the waters a brilliant pink.
