BELLA FIGURA

REFLECT

COLLECTION

Mirrors are hypnotic, elegant, and mysterious, fascinating humankind since time immemorial. They retain their ability to hold our attention, much like a beautiful chandelier or a delicate piece of glass. Mirrors also perform an extraordinary feat with their ability to create new dimensions and the illusion of space. As an obvious progression for Bella Figura, we decided to take some of our most sought-after products and create their reflective counterparts, bringing you Bella Figura's first collection of unique mirrors.

The collection embodies elements of many of our previous collections, including the Moonlight, Halcyon, Mayfair, and Retro Murano Collections. Honing in on the elongated curves, sweeping arcs, and delicate details of our original designs, they challenge the boundaries of traditional shape and composition. In keeping with our roots as a lighting company, it wouldn't be Bella Figura if we didn't include a lit element in some of the designs. The aforementioned mirrors are available both with and without their energy efficient LED additions.

Bella Figura has always been an avid supporter of English and Italian craftsmanship, which is why all of our products are exclusively made in these two countries. In recent times, we have sought out and focused upon the best of our homegrown talent, championing English blown glass and crystal, together with metalsmiths, and lampshade makers across the breadth of the UK. Our Mirror Collection showcases the skill and finesse of our most dedicated British craftsmen and women, all of whom possess an attention to detail that you can see and feel in each and every piece.

LOTUS

A symbol of peace and purity around the globe, the Lotus flower yields a fruit that leaves its consumer in a state of reverie and musing. It only makes sense to extend the Lotus family of the Halcyon collection to include a mirror, emulating similar qualities to our Lotus Wall Light.
